Document Headings

Main Title

Subtitle

Heading 1

Heading 2

Heading 3

Normal text

Conventions

Documents

- ❖ Documents should have an index after the title page unless it is a document that does not require one.

Headings

- ❖ Main headings (heading 1 / heading 2) shouldn't be long, should be short and to the point. This is for readability and for design convention.

Pages

- ❖ Pages should be numbered.
