Meeting Minutes

Date 11/08/21 Time 20:00

Attendees

Andrew Smith
Adam Blewitt
Pat Funnell
Cameron Nyberg
Darren Sheehan

Agenda

❖ Meeting content

❖ Semantic segmentation
  ➢ Adam suggested doing
  ➢ Andrew found that some of the polygons were not drawing, he figured out there was something wrong with the file.
  ➢ Some of the annotations are mislabelled.
  ➢ 5 colours and black for the background.
  ➢ Red should consistently map to 1

❖ Conflicting messages was discussed
  ➢ Intellify driving finished product
  ➢ DCS more using it as a exploratory project to see what can and cannot be done.

❖ Today's update from Maria sent to Pat
  ➢ Should have feedback on shape files back soon.
  ➢ Leanne's team is working on getting more images

❖ Iteration Planning for C3
  ➢ Test Model
  ➢ UAT GMM Inftro
  ➢ Masks completed (drawn based on JSON converter)
  ➢ A completed end to end working model for AWS sementec segmanteation (for UAT purposes)
  ➢ Pat added all items to Jira.

❖ GDAL was discussed as being very un user friendly after pat managed to break his.

❖ ICOM
  ➢ Test Model including Alpha user acceptance testing - discussed as an internal test to ensure things are working - Darren
  ➢ User Manual - Adam
  ➢ Beta Ready Implementation Model of the Final Application - Adam

❖ Discussion of repository
  ➢ Git Rep a little messy, needs folders.
  ➢ Adam suggested using tags with releases
  ➢ Resolved to review at the end of the next iteration.

❖ Issues and Challenges

- ❖ Semantic Segmentation proved to be challenging, Andrew and Cam working on it, unsure at this stage if the issue is in code or annotations.

❖ To Be Actioned

- ❖ Tasks added to Jira.
